

SEALS OF APPROVAL AND SUSTAINABILITY

Together with our suppliers/manufacturers, we use carefully selected quality marks and cooperate with organisations that guarantee sustainable developments in specific parts of the production process.

We also consider it our duty to contribute to a better environment, not only for ourselves, but also for the next generation. Thus, certain types of throws in SILT's collection are recycled and the following labels are used, among others:

OEKO-TEX® STANDARD 100

Oeko-Tex (Öko-tex) Standaard 100 is a testing and certification system for textiles. If a manufacturer receives the Oeko-Tex seal of approval after testing, the textiles do not contain harmful substances.

BSCI

Our manufacturers have joined the Business Social Compliance Initiative (BSCI) to independently audit our production sites. In this way, the official standards of working conditions are well protected and guaranteed. The right of forming a union, creating safe working conditions and preventing forced and child labour are among the major pillars of this initiative.

IT'S ALWAYS
A SILT SEASON

SILT
STYLE / COMFORT

ENJOY WARMTH AND COSINESS ALL YEAR ROUND

A throw offers you comfort in all seasons of the year.

A throw 'as a product' is even used in all stages of life.

A baby is rocked gently with it, a toddler builds the most beautiful huts with it, teenagers in love have a picnic on the beach with it, the hard worker crawls on the couch with it and the very elderly lady warms her lived-in body with it.

So besides its practical function, a throw also quietly contributes to precious moments, which you will always carry with you as a memory.

INTERIOR AND EXTERIOR

Every season has its own climate, of course, and thus each season also has its own charm.

In autumn and winter, we live more indoors and the focus is mainly on creating and enjoying a cosy interior. After all, after a cold, rainy day, it is lovely to warm up in an atmospheric 'home'.

Spring and summer lengthen your days, making you enjoy the outdoors more. Dinner in the garden, late-night drinks with friends on the terrace or just dreaming away by yourself in a sky full of stars.

A SILT throw warms those special moments. A SILT throw decorates your favourite spots; both indoors and outdoors. To create a beautiful, complete unit, most SILT throws have matching cushions.

SILT NEVER LEAVES YOU OUT IN THE COLD

SILT adds quality and relaxation to your life. Our throws and cushions offer warmth, comfort and cosiness. SILT embellishes interior and exterior. Cost-efficiently create a different look for your (seating) furniture in no time and enjoy a natural source of warmth.
